

Communications Equipment Shelter on Cadillac Mountain

State Property Available for (DONEY)

October 9, 2014

The State of Maine seeks bids for a serviceable communications equipment shelter, available in the spring of 2015, located at the radio communications site near the summit of Cadillac Mountain, Mount Desert Island, Hancock County Maine, within Acadia National Park (44 21' 6.408"N, 068 13' 36.408"W); accessible via the paved Cadillac Mountain Summit Road, and a short gravel driveway.

The basic shelter specifications are: dimensions 10' x13' x9', RufNek Model M5474, manufactured 2002, weight 35,000lbs. This shelter was temporarily placed on site while renovations were made to a nearby permanent shelter. State radio equipment will be removed during the winter 2014/2015.

A condition of the sale will be for the Buyer to (1) remove the shelter from the Cadillac radio communications site; and (2) coordinate the move date with Acadia National Park to avoid interference with Park tourist traffic; as soon as possible after snow has melted on the Summit Road in 2015.

The Maine Office of Information Technology (OIT) will facilitate this transaction through the Division of Surplus Property.

Additional details are available through State Surplus.

A bid walk will be scheduled.
